

Hello,

We understand you probably feel like you just got hit with the worst news of your life.

We too were diagnosed with breast cancer, devastating at any age.

We understand the hurdles and complications of having breast cancer at all stages in life. This is why we are so passionate about our organization, the Delaware Breast Cancer Coalition, and our Peer Mentor Program. All six of us personally know the feeling of receiving this folder, but we hope that our stories can inspire you to fight and continue to live life to the fullest.

This ~~stinks~~ (insert your choice word here). It's not fair. We agree 150%, but know we are here for you, no matter what, throughout your journey.

The main goal of the Delaware Breast Cancer Coalition's Survivorship programming is to provide support, networking, and education to women and men diagnosed with breast cancer. Topics include but are not limited to fertility, nutrition, sexuality, treatment options, resources, and continuing to live life to the fullest at every age.

You will find our photos and phone numbers below. When you are ready to talk and need someone who understands what you're going through, we are here to listen without judgment.

Not ready to talk over the phone?

Join our community online, by following us on social media [@debreastcancerco](#) or [@deyoungsurvivors](#) to stay in the loop with upcoming events & activities!

You can also checkout our upcoming events on our website at www.debreastcancer.org/events

Healing thoughts to you and your family. We look forward to meeting you soon!
